THE BULLETIN POSTAL GUIDE

WHY ADDING POSTAL DISTRICT NUMBERS TO ADDRESSES SPEEDS YOUR MAIL

The general Postoffice Department in Washington has inaugurated a plan whereby every letter, circular, parcel post package or other mail communication will be delivered more quickly and efficiently.

The plan is now in operation in the principal cities of the United States, including Philadelphia. It is not possible to give an exact list of all such cities because although definitely adopted in the cities listed on page 6 many medium-sized and smaller cities are making studies to determine whether or not to adopt the plan.

The sooner each individual or business firm using the mails understands this plan and puts it into effect, the sooner will each begin to derive the benefits of this modern, up-to-date method of distributing mail quickly and efficiently.

THE DISTRICT NUMBER PLAN EXPLAINED

To understand this new plan and to know why it is being put into effect you must first realize that practically all of the mail delivered in Philadelphia must first go to the General Postoffice at 30th and Market Sts.

Mail carriers cannot go to the central postoffice to get the mail for their routes as they do in small towns. Instead the large mass of mail, millions of pieces a day, must first be separated into 48 districts and delivered to the distributing point that is nearest to the home or office to which it is addressed—a huge task.

How does a postal employe know to just what distributing point to send a letter addressed to, say, 4512 Mattapan av? Each of the 48 distributing points in the city delivers mail within certain definite boundaries. But the postal employe cannot take time to consult maps to know just which of the 48 districts includes 4512 Mattapan av.

Because a piece of mail may belong in any one of 48 districts, this postal employe must memorize all the streets and street numbers in Philadelphia, over 4,800 separate pieces of street information. It takes a least two years of hard study for such employes to even begin to become experts in this work.

FEWER EXPERT MAIL SORTERS

Despite the fact that these expert mail sorters are practically irreplaceable no draft deferment has been asked for them or any other postal employes. As these experts leave for the armed services, their places must be filled by less experienced employes, unfamiliar with the thousands of streets and street locations in Philadelphia.

Adding the district number to each Philadelphia address, however, enables inexperienced employes to instantly know to just which distributing point in the city to send your letter.

For instance, take an address such as 709 Maple av. The expert postal employe must know from memory that there is a Maple av. in West Manayunk, for numbers 1 to 199, a Maple av. in the Frankford district for numbers 700 to 899 and 4700 to 4799 and another Maple av. in Somerton that does not carry house numbers at all. For an inexperienced employe to decide just where to send this letter would cause inevitable delays. Such decisions must be made for thousands of pieces of mail a day.

But when you add the postal district number and address the letter 709 Maple av., Philadelphia 24, even the inexperienced employe instantly knows that Philadelphia 24 means the letter should go to the Frankford Postoffice for delivery, and sends it quickly on its way.

BENEFITS OF THE PLAN

Individuals and business firms will welcome this modern, up-to-date plan for speeding up delivery of their mail. It has worked successfully for years in many large cities in Europe. The plan will not only prevent wartime manpower shortages from delaying your mail but its benefits will carry on after the war. As its benefits become better known, many firms and individuals will come to look on the former method of addressing mail as out of date and old-fashioned. Those firms and individuals who add the district numbers to all addresses will be regarded as progressive and up-to-date. Adding the district number to addresses really tells the receiver of mail that you are interested in seeing that he gets his mail as quickly as possible.

HOW THE POSTOFFICE HELPED

As a public service to the people of Philadelphia, The Evening Bulletin has made a careful study of this new postoffice plan and has devised a quick and easy method for each firm and individual in Philadelphia to know its correct district number and also to know the district number for any mail addressed in the Philadelphia postal district.

The Honorable Joseph F. Gallagher, Postmaster of Philadelphia, as well as his staff, have generously devoted many hours of their time providing information to carry out this plan through The Bulletin Postal Guide. Without their valuable guidance and co-operation this guide could not have been made available to Philadelphians.

How to Use the Bulletin Postal Guide to Speed Delivery of Your Mail in Philadelphia

Bear in mind that Philadelphia district numbers are only necessary on mail addressed to streets within the limits of the Philadelphia postal district shown on page 8. All mail to Philadelphia suburbs outside the city such as Ardmore, Manoa, Collingdale, etc., is addressed as usual without district numbers.

How would you find the Philadelphia district number for a letter addressed to

Mr. J. D. Jones
3226 Chancellor Street
Philadelphia
Penna.

You would turn to the alphabetical list of streets and under "C" come to the following on page 15.

*Chancellor, 200 to 799	6
800 to 1399	7
1400 to 1599	2
1600 to 2399	3
3200 to 3999	4
4900 out	39

In the fifth line under Chancellor, you find that numbers 3200 to 3999 are in Philadelphia district 4, so you would address your letter

Mr. J. D. Jones
3226 Chancellor Street
Philadelphia 4
Penna.

What is the Philadelphia number for a letter addressed to

Mr. C. D. Smith
2026 South Darien Street
Philadelphia
Penna.

You would turn to the D's and find on page 19, Darien Street as follows:

*Darien, 200 to 399	7
north, 400 to 1099	23
1200 to 2199	22
2600 to 3199	33
3200 to 4699	40
south, 700 to 1599	47
2000 out	48

You will find in the last line that "2000 out" meaning all numbers for South Darien Street over 2000 are in Philadelphia district 48. So you would address your letter:

Mr. C. D. Smith
2026 South Darien Street
Philadelphia 48
Penna.

ABOUT NUMBERED STREETS IN PHILADELPHIA

The numbered streets in Philadelphia are either North numbered streets or South numbered streets. For North numbered streets turn to N and look under North and for South numbered streets turn to S and look under South.

All avenues, whether numbered, such as Thirty-sixth Avenue (listed under T) or named, such as Girard Avenue, are listed alphabetically.

For instance, to get the Philadelphia district number for a letter addressed to

Mr. L. J. Johnson
2913 N. 13th Street
Philadelphia
Penna.

you turn to North on page 37 and under North-13th you will find:

13th	1- 399	7
	400-414	8
	415-1199	23
	1200-2199	22
	2200-3199	33
	3200-4699	40
	4700-6399	41
	6400 out	26

The fifth line shows that all numbers on North 13th from 2200 to 3199 are Philadelphia district number 33 so your address will be

Mr. L. J. Johnson
2913 North 13th Street
Philadelphia 33
Penna.

MAIL ADDRESSED TO BUILDINGS, CLUBS, COLLEGES, HOTELS AND APARTMENTS

You will find on page 57 a convenient list of the more prominent of these with the proper Philadelphia district number for each one.

Remember that in addressing such mail it is essential, for prompt delivery, to include the room or apartment number as well as the street number and district number.

Let's suppose you have an address

S. C. Jones
Apartment 223
The Drake Hotel
1512 Spruce Street
Philadelphia
Penna.

Turning to page 59 under "Hotels and Apartments" you find:

Covington	4
Creshheim Arms	19
Delmar-Morris	44
Drake	2
Drexel	31

The proper address will then be

S. C. Jones
Apartment 223
The Drake Hotel
1512 Spruce St.
Philadelphia 2
Penna.

SPECIAL NOTE REGARDING FIRMS WITH POSTOFFICE BOXES

Many large business firms in Philadelphia rent postoffice boxes in any one of four principal stations in order to call for their mail as many times a day as they desire. In addressing mail to such firms it is necessary to show the Philadelphia district number of the firm's **postoffice box where mail is received and not the Philadelphia number of the address at which the firm is located.**

A list of such firms with the proper Philadelphia number for each firm's postoffice box is shown on page 60.

Suppose you want the Philadelphia number for

The Evening Bulletin
Filbert & Juniper Sts.
Philadelphia
Penna.

By location of its building, The Evening Bulletin is in Philadelphia district 7. But because it is one of the firms receiving its mail at a postoffice box, its mail should carry the Philadelphia district number of its postoffice box where mail is received instead of the district number of its building.

To get The Evening Bulletin's proper Philadelphia district number, you turn to the list of Philadelphia Business Firms on page 60 and find:

Budd, Edward G. Mfg. Co.	32
Buist Seed Company	5
Bulletin, The Evening	5
Burpee, W. Atlee	32

The proper address would then be

The Evening Bulletin
Filbert & Juniper Sts.
Philadelphia 5
Penna.

NOTE ABOUT MAIL ADDRESSED TO BRANCH OFFICES

Many business firms such as banks, savings institutions, etc., that receive their main or central office mail at a postoffice box also maintain branch offices in various parts of the city.

When mailing direct to a branch office do not use the district number of the main or central office. Instead note the street address of the branch office and look up the proper district number for this branch office address.

TO ALL ORGANIZATIONS WITH MAILING LISTS

Up to June 15, 1943, the following cities have definitely expressed their intention of putting the postal district number system into operation. This list will increase as other cities definitely adopt the new plan.

Albany, New York
Baltimore, Maryland
Boston, Massachusetts
Chattanooga, Tennessee
Chicago, Illinois
Cincinnati, Ohio
Cleveland, Ohio
Detroit, Michigan
Fort Wayne, Indiana
Los Angeles, California
Madison, Wisconsin
Milwaukee, Wisconsin

Minneapolis, Minnesota
New York, N. Y.
Newark, New Jersey
Omaha, Nebraska
Philadelphia, Pennsylvania
Pittsburgh, Pennsylvania
Rochester, N. Y.
San Antonio, Texas
San Diego, California
San Francisco, California
Saint Louis, Missouri
Staten Island, N. Y.

Washington, D. C.

CORRECTION OF MAILING LISTS

Although Philadelphia addresses can be corrected by use of The Bulletin Postal Guide, postmasters in all the above cities, including Philadelphia, will be glad to add the proper district number to all addresses in their postal districts. Simply run off your names for each city on cards and send them to the postmaster in each city with a letter requesting the district number for each address. There is no charge for this service.

NEW STENCIL PLATES NOT NECESSARY

Although the postoffice requests that the district number be shown after the name of the city, many addresses as now punched on stencils show the name of the city, immediately followed by the name of the state as "Philadelphia, Penna." In such cases, the postoffice has ruled that adding the district number after the state as "Philadelphia, Penna. 25" is acceptable. In this way, corrections can be made on present stencil plates. When new names are added, however, requiring the punching of new plates, it is requested that the address take the form:

Philadelphia 25,
Penna.

SALES DATA FROM DISTRICT NUMBERS

It is suggested that business firms who want to make periodic checks of the distribution of their customers in various sections of the city make arrangements to tab each stencil to indicate to which of the 48 Philadelphia districts it belongs. It is then easy to make automatic counts of the number of customers in each section of the city, send special mailings to selected districts, etc. For details on adding tabs consult the local office of the manufacturer of your addressing equipment. Stores, banks and other businesses doing business with the public will find it worth while to thoroughly investigate the sales information which the district number system provides.

It will also be of interest for such businesses to know that all streets in The Bulletin Postal Guide whose names are preceded by an asterisk are streets whose mail averages higher than that of other streets.

Suggestions for Proper Mailing

If your mailing list stencils are tabbed for each postal district, group each mailing into bundles labeled for each postal district, and deliver to the postoffice. In many cases this practice will result in much faster delivery.

Write name and address plainly and completely, including city, postal district number and State.

Place name and address of sender on all matter, including city, postal district number and State, and request correspondents to do likewise.

Prepayment of postage in full expedites dispatch in delivery, prevents annoyance to all concerned and results in most satisfactory service.

Use designation, North or South, East or West, when a proper part of the address.

Insure all parcels for mailing.

Wrap parcel post carefully in heavy paper and tie with strong cord. Pack well to protect contents.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Names of postoffices should not be abbreviated, and care must be exercised in abbreviating names of State, "Mo." and "Me."; "N. J." and "N. Y." Also "Pa." and "Va." are often confused.

Firms using the mails for advertising should arrange for periodical careful checking of mailing lists. For a reasonable charge, postmasters will report incorrect addresses, removals, etc. Use Form 3547 in your return card on circular and parcel post mail.

Use the Special Delivery Service when prompt delivery is desired.

Do not deposit heavy mailings in street letter boxes or office chute slots. Arrange to deliver to the postoffice.

Use envelopes, cards and folders of standard size and shape so they can readily be handled in the distribution cases and will reach the addressee in good condition.

Use the Registered Mails for sending valuable jewelry and important papers.

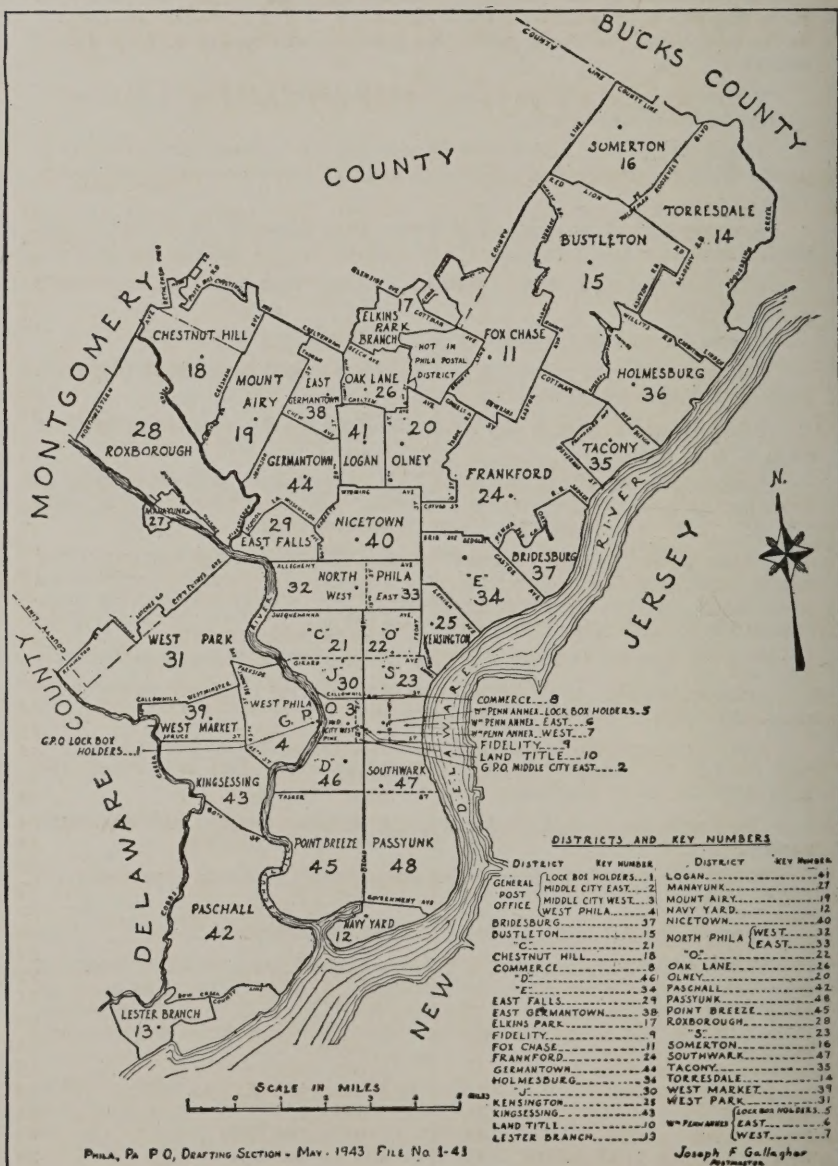

When purchasing stamps, buy Stamp Books. It saves repeated trips to the postoffice.

When using Air Mail, use light weight stationery.

When addressing mail to an Office or Apartment Building, many of which are small communities in themselves, always include the room or apartment number as part of the address. This will expedite delivery, especially on days when the regular carrier is absent from duty for any reason.

Notify the postoffice immediately of any change of address. Likewise, notify your correspondents and magazine publishers of your new address and postal district number. Forms for this purpose can be obtained from your letter carrier or the postoffice.

Any stamps may be used, but Air Mail stamps are preferred. If distinctive envelopes are not used, write "Air Mail" prominently on face of envelope. Air mail may be registered, insured, sent C. O. D. or special delivery.

Time Saving by Air Mail

Savings of time in transit compared with rail transport increase with the distance. Thus while only an hour is saved in Philadelphia mail addressed to nearby points such as Harrisburg and Baltimore, the margin in favor of Air Mail jumps to 5 hours for Pittsburgh delivery; 12 to 15 hours at Chicago; 15 hours at St. Louis; 24 hours at Kansas City; 38 hours at Denver, and two and a half days at San Francisco and Los Angeles.
